CAREER OBJECTIVE

I am Nadheem, a final-year B.Tech student in Computer Science and Business Systems, with a strong academic foundation and a growing passion for Cloud Computing and Modern IT Infrastructure. I possess essential skills in cloud platforms (AWS/Azure/GCP), virtualization, Linux fundamentals, networking concepts, and container technologies like Docker & Kubernetes.

My goal is to leverage my cloud development skills to build scalable, secure, and efficient cloud-based solutions, while continuously learning and contributing to impactful real-world projects in a dynamic and challenging environment

EDUCATION

- **Bachelor of Technology**
Er. Perumal Manimekalai college of engineering – Hosur **2022-2026**
Computer science & business system
- **DIPLOMA**
Er. Perumal Manimekalai college of engineering – Hosur **2019-2022**
Computer science & business system

SOFT SKILLS

1. **Teamwork:** Able to collaborate effectively in group settings to achieve shared goals
2. **Time Management:** Skilled at prioritizing tasks and meeting deadlines efficiently
3. **Critical Thinking:** Strong analytical abilities for problem-solving and decision-making
4. **Leadership:** capable of guiding peers and taking initiative in team projects
5. **Communication:** Clear & confident in both verbal and written interaction

TECH SKILLS

- **Cloud Platforms:** AWS / Azure (Basics)
- **DevOps Tools:** Docker, Kubernetes, Git, CI/CD Concepts
- **Networking:** VPC, Subnets, Security Groups
- **Scripting:** Basic Shell Scripting
- **Web Basics:** HTML, CSS, JavaScript
- **Productivity:** MS Excel, PowerPoint, Word

INTERNSHIPS

X-Ciencia Technologies India Private Limited — Java Development Intern

- Developed and debugged **Java-based applications**, applying OOP principles, Collections, Exception Handling, and JDBC.
- Assisted in **writing, testing, debugging, and optimizing Java code** to improve application functionality and performance.
- Collaborated with the development team to **identify and resolve software issues**, troubleshoot bugs, and enhance application reliability.
- Gained practical experience in **Java application development and database connectivity** using JDBC.

Pumo Technovation — AWS & DevOps Intern

- Gained hands-on experience with **AWS cloud services** including EC2, S3, IAM, VPC, Lambda, CloudWatch, ELB, DynamoDB, SQS, and SNS.
- Worked with **DevOps tools and practices** including Git/GitHub, Docker, Jenkins, Maven, Vagrant, and CI/CD pipelines.
- Performed **Linux server and command-line management**, containerized applications using Docker and Docker Compose, and configured Nginx as a web server/reverse proxy.
- Acquired foundational knowledge of **Kubernetes** for container orchestration and automated build, testing, and deployment workflows.

DECLARATION

I hereby declare that all the details mentioned above are true to the best of my knowledge and belief. I take full responsibility for the correctness of the information provided.
